BSc CSIT Objectives

Provide intensive knowledge on the theory, design, programming and application of computers; provide in-depth

understanding of computer systems; develop creative and analytical problem-solving skills; equip students with

technical knowledge for multi-tasking IT roles; and build functional knowledge of both hardware and software

systems.

BSc CSIT Career Prospects

Graduates can pursue roles such as software developer, web developer, database administrator, data analyst,

SEO specialist, and game developer. Many alumni have become entrepreneurs running their own software

companies.
